DIARY NOTES

DD/S [REDACTED]

1 October 1959

25X1A9a

25X1A5a1

1. I attended a briefing given by Mr. [REDACTED] and his associates from [REDACTED] at the Photographic Intelligence Center. They have just completed an extensive study of PIC and have attempted to project its future for five years. The gist of their conclusions was that PIC is unable to cope with its present responsibilities, requirements on it will increase in the years to come and it will become more and more inadequate. They advocated a minimum expenditure of [REDACTED] within the next two years to rectify this situation and really felt that to solve the problem on a long-range basis an expenditure of [REDACTED] over the next five years would be required. H

2. The Director advised me that he had received a telephone call from Mr. Joseph Campbell, the Comptroller General, who requested that I meet with Mr. Samuelson to discuss the draft letter which the Director had sent to Mr. Campbell a few days ago. The Director said he anticipated that Samuelson wanted to broaden the scope of the audit beyond that which our letter contemplated and also said he thought that we should stick by our guns. H
